

SOFTWARE DEVELOPER

Are you a top-motivated Software Developer looking for your next big challenge? Do you have a passion for innovation and a drive to contribute to mission-critical communications solutions? At Chora, we continue to successfully serve our market, and we are therefore strengthening our team in Aarhus.

YOUR ROLE AND RESPONSIBILITIES

In this position, you will contribute to the development of our mission critical communication equipment used by e.g. the electronic warfare sector.

- You will work with full-stack development, primarily using C++
- You will play a crucial role in developing new innovative Chora solutions for our customers
- You will contribute to optimization, expansion and maintenance of existing products and features
- You will be part of one of our agile Scrum teams with a high degree of autonomy and responsibility

YOUR PROFILE

- You have a minimum of 3 years of experience as C++ software developer, preferably more
- You have a Bachelor or a Master's degree in computer science or similar
- You have strong coding skills in C++ and preferably C#
- Familiarity with Git and Jenkins, as well as code review tools like Gitea, is a plus
- Experience with object-oriented design and design patterns is a plus
- You have the ability to overview and understand the entire system design
- You take ownership of your tasks and responsibilities, just as you thrive on working independently
- You also enjoy working closely with your colleagues within an agile Scrum team setup

You live within commuting distance of Aarhus, and you speak and write Danish and English at professional level. You have a clean criminal record and you are a Danish citizen or you have lived in Denmark for at least the last 7 years.
